

Sumrit Singh

Frontend Developer | React.js | Next.js | JavaScript

New Delhi, India | +91-8750343900 | sumrit578singh@gmail.com | [GitHub](#) | [LinkedIn](#)

Summary

Frontend Developer specialising in React.js and Next.js with internship experience and a portfolio of production-grade SPAs, AI-integrated platforms, and e-commerce applications. Skilled in Redux Toolkit, REST API integration, TypeScript, responsive design, and component-based architecture. Delivered 30–40% measurable performance improvements.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Redux Toolkit, Tailwind CSS, Redux

React Expertise: React Hooks, useMemo, useCallback, useEffect, Lazy Loading, Code Splitting, Memoization, Component Lifecycle

Concepts: SPA Architecture, State Management, REST API Integration, Responsive Design, Cross-Browser Compatibility, Web Performance Optimisation, Agile

Tools: Git, GitHub, npm, Vercel, VS Code, Figma (basic), Chrome DevTools

Experience

Frontend Development Intern

May 2026 (1 month)

Skillxxa Technologies | Cert. ID: SKX-2026-26A3

New Delhi, India

- Developed reusable React.js components using component-based architecture, improving UI consistency and reducing redundant code.
- Integrated REST APIs into React components to render dynamic data, eliminating manual UI updates and improving accuracy.
- Built responsive UI with HTML5, CSS3, and Tailwind CSS ensuring cross-browser compatibility across all major devices.

IT Department Library Website Project | [Live Demo](#)

March–April 2026

GGSIU University, New Delhi

- Designed and developed a fully responsive library website for the IT department using React.js, TailwindCSS, and Clerk.
- Built dynamic book search and catalog browsing with DOM manipulation and REST API integration for real-time rendering.

Projects

NetflixGPT | *React.js, Tailwind CSS, Grok AI API, REST API* | [GitHub](#)

Jan 2026

- Built an AI-powered movie recommendation SPA integrating Grok AI API for real-time natural-language movie discovery.
- Reduced re-renders by 30%+ by optimising component architecture with `useMemo` and `useCallback` hooks.
- Architected 10+ reusable modular UI components, improving scalability and reducing code duplication.

TrendTrove – E-Commerce Platform | *React.js, Redux Toolkit, Tailwind CSS* | [GitHub](#)

Jan 2026

- Engineered a scalable e-commerce SPA handling 100+ product listings with dynamic filtering, sorting, and cart management.
- Cut initial page load time by 35% via pagination and lazy loading, improving Core Web Vitals and user retention.
- Implemented global state management using Redux Toolkit, enabling real-time cart synchronisation with minimal latency.

Youtubeis – YouTube Clone | *React.js, JavaScript, YouTube Data API* | [GitHub](#)

Feb 2026

- Decreased redundant API calls by 40% using debounced search with `useEffect` and `setTimeout`, improving UX.
- Built nested comment threads using recursive React components, replicating YouTube’s multi-level reply UI structure.

Hackathon Experience

ThreatLens | *React.js, Tailwind CSS* | HackAVENSIS – Top 15/100+ Teams | [GitHub](#)

Feb 2026

- Developed a security-focused React.js app to detect phishing indicators in .eml files, placing Top 15 out of 100+ teams.
- Built an interactive dashboard visualising email metadata – IP origin, SPF, DKIM, DMARC – for non-technical end users.

Education

GGSIU University, New Delhi

2025 – 2028

B.Tech in Information Technology (Pursuing)

Delhi Skill & Entrepreneurship University (DSEU), New Delhi

2025

Diploma in Computer Engineering | CGPA: 7.73
